Governance as a Service

Blockchain as a Digital Backbone

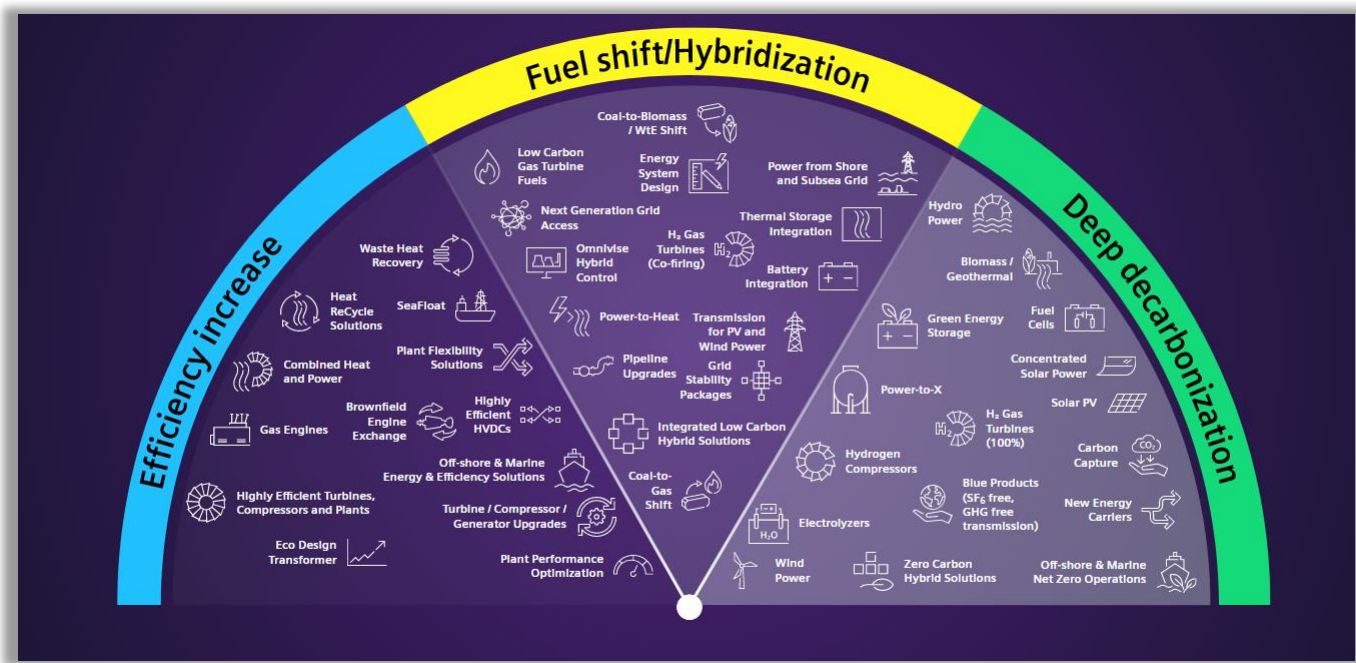

O Blockchain pode servir como uma **espinha dorsal**, um **alicerce** que permite um nível sem precedentes de **transparência, coordenação, escalabilidade e compartilhamento de informações**, ao mesmo tempo permitindo que as empresas mantenham o **controle sobre informações confidenciais**.

This material contains forward-looking statements regarding business prospects and operating estimates. Such forward-looking statements depend, substantially, on the continuity of market conditions, government regulations, competitive pressures, industry and economic performance, among other factors, in addition to the risks inherent to the business and, therefore, subject to change without prior notice. Several important factors may cause actual results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in this presentation.
